## SOLAR ELECTRIC INCENTIVE PROGRAM

**Solar electric systems can generate electricity by capturing clean electric from the sun. Using solar electric in your home can save you money on your electric bill and will displace greenhouse gas emissions produced from fossil fuel electric sources.**

**Two Rivers Water and Light offers cash incentives to encourage the purchase and installation of photovoltaic technologies in our community. Qualifying installations may be eligible for up to \$1,000 in incentives.**

1. Visit [www.focusonenergy.com](http://www.focusonenergy.com) or call 800-762-7077 to find a list of qualified solar electric contractors.
2. Contact Two Rivers Water and Light at 920-573-0155 for a pre-approval letter prior to purchase or installation.
3. To qualify for an incentive, the applicant must meet all of the eligibility conditions and complete the incentive application on the reverse side.
4. Attach the pre-approval letter and the original sales receipt indicating the date of purchase, the dealer or contractor name and address, and an itemized project cost.
5. Drop off your completed application at our office or mail it to Two Rivers Water and Light, 1415 Lake Street, Two Rivers, WI 54241.

### Eligibility:

- The Solar Electric Incentive Program is available to residential customers with a valid Two Rivers Water and Light electric account.
- Solar electric incentives include:
  - New Photovoltaic System**  
Rack-mounted PV systems, as well as building integrated PV, may be eligible for an incentive of \$1.00 per watt, up to a maximum of \$1,000. Two Rivers Water and Light must approve system interconnections prior to installation.
- Personal labor cannot be claimed as part of installation or repair costs if completed by the homeowner.
- Solar equipment must be certified by the SRCC, backed by an extended warranty, and installed by an experienced solar contractor.
- Any electrically operated components must meet applicable safety requirements of the NEC.
- The incentive may not exceed the total project cost.

The Solar Electric Incentive is a Commitment to Community program funded in part by the Public Benefits Charge. Applications will be accepted on a first-come, first-served basis, until allocated funds are spent.

**Deadline: December 31, 2010**

**Certification and Agreement**

I understand that this offer provides incentives for qualifying solar electric systems at residences currently receiving electricity on a retail basis from Two Rivers Water and Light. Qualifying solar electric systems include the purchase and installation of a of a new photovoltaic system. The system described in this application meets the appropriate certifications from the Solar Rating and Certification Corporation and has been installed in accordance with the National Electric Code and all applicable local ordinances.

I agree that Two Rivers Water and Light reserves the right to verify sales receipts and/or installations before issuing incentives. Qualifying solar electric systems or repairs must be purchased and installed between January 1, 2010 and December 31, 2010.

I agree that Two Rivers Water and Light does not guarantee that implementation of the solar electric system improvements described in this application will result in electric cost savings. Two Rivers Water and Light makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including, but not limited to, any warranty of merchantability or fitness for purpose. In no event shall Two Rivers Water and Light be liable for any incidental or consequential damages.

I understand that this program has a limited budget, and that applications will be accepted on a first-come, first-served basis, until allocated funds are spent. This program may be modified or discontinued at any time without notice.

I certify that all statements made in this application are correct to the best of my knowledge. I agree to the terms and conditions of this offer as set forth on this application.
